

Dear AMMA,

I just wanted to compliment the class today led by Deshi. It was wonderful. He went over the importance of the basics, how it personally helped him in a scenario, and did it at a great pace for the kids. Additionally, he had the kids recite they would clean their rooms, do the best they can at school and begin their homework on their own without being asked. This was the recipe for the perfect class. The kids learned and they laughed. Just thought I'd share.
